Subject: Minntac permit

Hi Jeff – From our past conversations I understood that you would likely have a pre-proposed permit for Minntac to us around the end of May. I just want to confirm that you intend to follow the approach we worked out on the Polymet permit which was to provide the pre-proposed permit for a 45 day review by EPA.

As part of the pre-proposed permit submittal we will need a copy of the comments received on the draft permit and PCA's response to comments.

Please let me know if my understanding is correct. thanks
